

tessello user guide  
Homepage  
new content

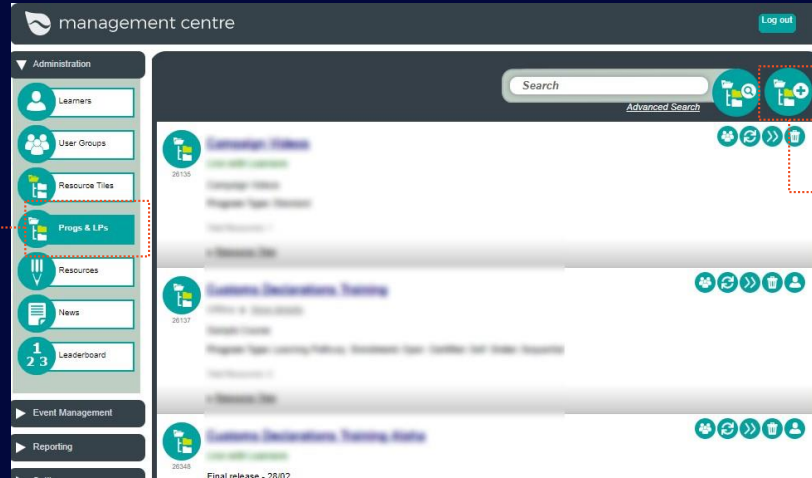

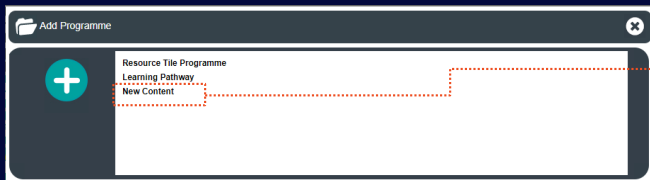

**To encourage learners to launch specific resources and keep the home page fresh, you can promote content on the homepage.**

# Activating the new content feature

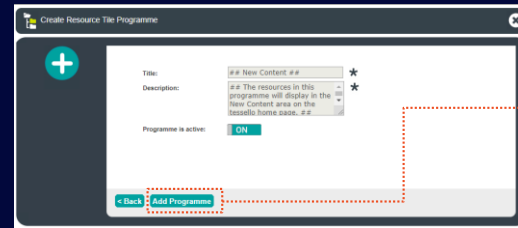

Step 1  
Select the Progs and LP's section

Step 2  
Click Add a Resource  
Tile Programme or  
Learning Pathway

Step 3  
Click New  
Content

Step 4  
Click Add  
Programme

# Editing new content

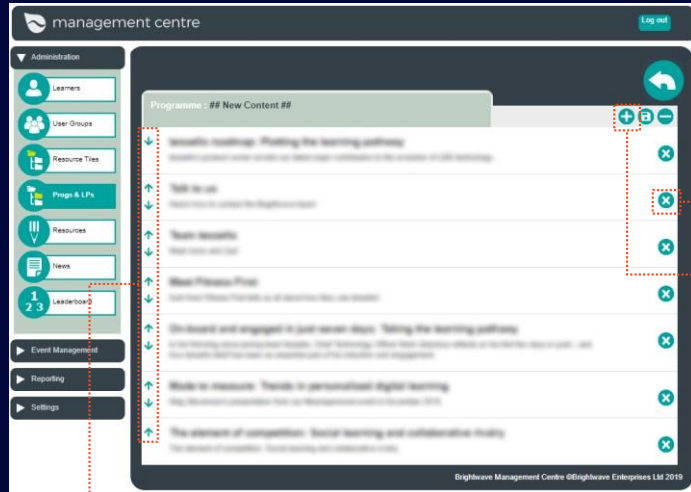

Note: The new content area will only appear on the home page if it contains at least one resource. Restrictions cannot be applied to this programme, so all learners will see these resources even if they also belong to a restricted programme.

Step 1  
Select the Progs and  
LP's section

The screenshot shows the 'management centre' interface. On the left is a sidebar with navigation options: Administration (Learners, User Groups, Resource Tiles, Progs & LPs, Resources, News, Leaderboard), Event Management, Reporting, and Settings. The 'Progs & LPs' option is highlighted with a red dashed box. The main content area has a search bar and an 'Advanced Search' link. Below this is the 'New Content' section, which is also highlighted with a red dashed box. It shows a list of programmes with details like 'Live with Learners', 'Total Resources: 7', and 'New Content'. The 'Edit Resources' icon (a circular arrow) is visible in the top right corner of the 'New Content' section.

Step 2  
New content always  
appears at the top. To  
edit, click the Edit  
Resources icon

# Changing resources within new content

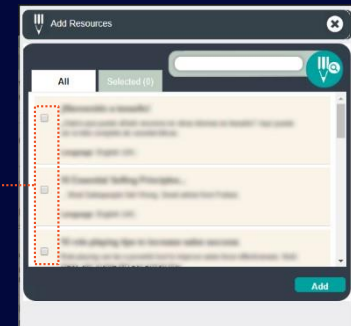

Re-ordering the resources  
Use the arrows to dictate the  
order the content appears

Selecting a resource  
Check all the resources you'd like  
to add to the new content area

Deleting a resource  
Click the cross icon to remove a  
resource from the new content area

Adding a resource  
To add more resources to the new  
content area, click on the plus icon and  
the overlay below will appear

**Note:** Don't forget to click save
